

Poland and Russia extended bands:

danita 3000 Multi can be set up so extended bands can or cannot be selected directly from the country selector.

Inside the danita 3000 Multi, on the rear side of the PCB, are 3 small point called OTP1-3 (rear side of IC101)

These points can be soldered or open depending on your choice. Look at the table below and change your danita 3000 Multi, according to your preferences.

Attention:

The use of these extended bands is not allowed in Europe.
